About AiHum

Uniting AI and Humanity: Empowering a Brighter Future Together

GENERAL REVIEW

Last update: 3.30.2023

AGENDA

INTRODUCTION

What is our mission?

Our mission is to create projects that use AI and data science to benefit humanity and provide exceptional educational opportunities for people of in different levels. We believe that AI should be used to improve the lives of people, not just as a tool for profit or power.

OUR SERVICES

Your data are talking to us!

Product
- Through artificial intelligence and data science, we develop international products that benefit people and make their lives easier.

Project
- Using artificial intelligence and data science, we believe we can solve the open problems of international businesses and organizations.

Awareness
- To build a great future, we believe education and awareness at all levels of Persian-language society are essential and real need.

OUR PROCESS *only for one journey!*

| Step 1	Step 2	Step 3	Step 4	Step 5
Business Understanding	Meta-Model Building	Looped Development	Deployment	Maintenance
We have meetings so that we can familiarize ourselves with your business operations as well as get acquainted with one another.	Now, we can establish a meta-model that delves into the various tiers of objectives and operational goals, ensuring that we are aligned in addressing your current issue.	We will incorporate your feedback throughout the development process and ensure that you are involved in every step.	We are now prepared to deploy your solution in its operational environment.	We are continuously journeying together without any breaks, and maintenance is ongoing!

We want a journey with you!

OUR AREA OF EXPERTISE

Data-driven Development

- Data mining
- Data analysis
- Business intelligence
- Business development

Artificial Intelligence

- Machine learning
- Audio processing
- Computer vision
- Natural language processing

Software Development

- Web development
- Ios application
- Android application
- Desktop software development

Our team will deliver complete and effective solutions utilizing the latest AI and data science techniques to achieve your desired outcome…

WHY AIHUM? 3 CORE POINTS

We have **Scalable Team** in technical and business domain.

You can **Extend Your Business** with us to the world!

In this journey, you'll have a **Great Experience** with us!
